**Subject:** Peabody Trout Creek Reservoir - EA

The Lands Division at Western Area Power Administration (Western) recently received a copy of Scoping Document 1, which pertains to the Environmental Assessment for the proposed Peabody Creek Reservoir (Project No. 14446) in Routt County, Colorado. Western operates two large electric transmission lines which are situated within the proposed reservoir project area. Scoping Document 1 was mailed to the Western's Hayden substation address, which resulted in a significant delay in it reaching our Engineering, Environmental, and Lands staff. We respectfully request that Western's Hayden, CO address be removed and all future notices and information pertaining to this Environmental Assessment or EIS be delivered to Western at the following addresses:

Mr. Bradley Warren  
Regional Manager  
Western Area Power Administration  
Rocky Mountain Region J0000.LV  
P.O. Box 3700  
5555 E. Crossroads Blvd.  
Loveland, CO 80539

and

Ms. Carey Ashton  
Realty Officer  
Western Area Power Administration  
Rocky Mountain Region A7400.LV  
P.O. Box 3700  
5555 E. Crossroads Blvd.  
Loveland, CO 80539

Thank you for your assistance.
